ABOUT BOLD

Headquarters in Jaraguá do Sul / Santa Catarina.

The world inspires
**us to create, and the
market motivates
us to grow.**

With a history that reflects dedication, strength, and commitment, Bold is driven by the continuous desire for growth. For over 20 years, we have been operating in the visual communication, industry, and construction markets, integrating cutting-edge technologies and innovation, and providing our clients with the best solutions with readiness and agility.

Growth is not just a desire; it is a goal that is achieved and exceeded year after year.

To accomplish this, efficiency and speed go hand in hand, enabling us to do more with less while promoting progress in a sustainable and profitable manner.

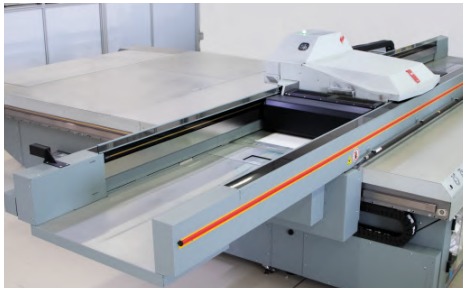

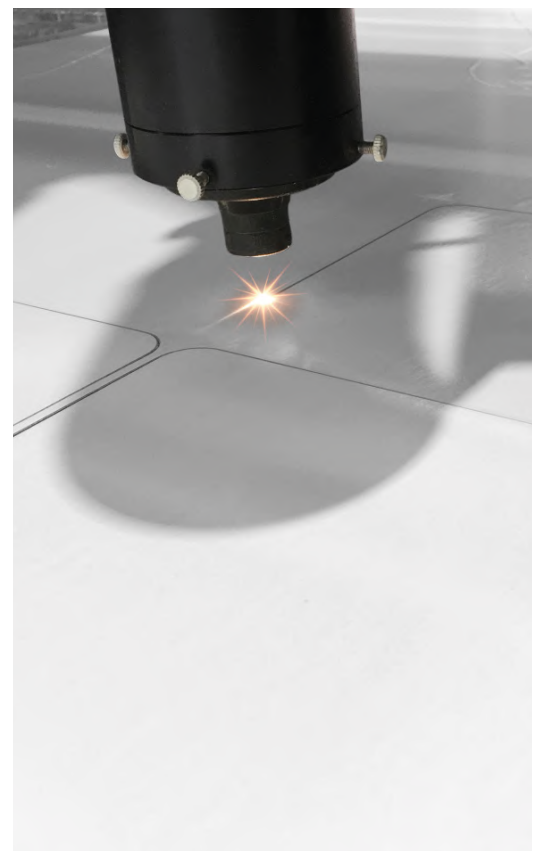

Saying that Bold has the best products is not just a marketing strategy; it is about taking responsibility for our own results. The company is always committed to truth and competence, ensuring products that meet the highest quality standards in both national and international markets.

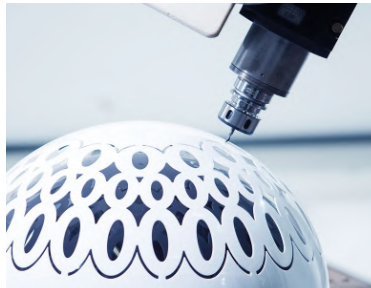

Greater agility in delivering your projects.

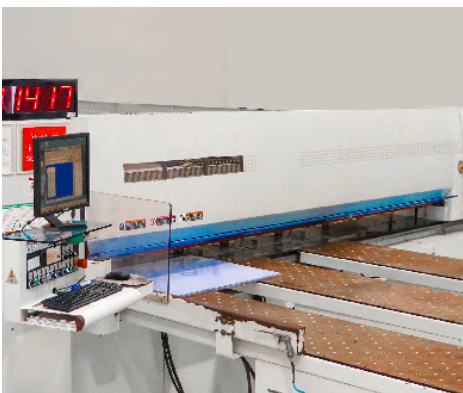

Bold offers a variety of services and solutions to facilitate the production of your pieces, delivering them pre-processed according to your needs, enhancing your performance and production flow.

Cleaning and Maintenance

- Wash the surface with water and neutral detergent;
- Rinse with a jet of clean water;
- Drying can be done outdoors with the help of a squeegee or lint-free cloths;
- To remove silicone compounds and grease, use isopropyl alcohol;
- Do not use solvents such as turpentine or acidic products, as they may cause bubbling and loss of gloss.

Recycling

EasyBold and EngeBold panels are fully recyclable, with aluminum as their main material, which can be separated and reused to produce new materials.
